**LET US JOIN HANDS TO CONSERVE OUR RICH HERITAGE**

## Bhagwan Birsa Biological Park Welcomes Animal Care!

Man has realized the importance of the Wildlife Conservation for the perpetuity of humankind. It is also important for two reasons; first for the survival of mankind and second that we do not have a right to stop evolutionary processes and destroy all those species which have evolved and come to the earth much before evolution of mankind.

The Bhagwan Birsa Biological Park is one of the top Zoos in the world, where the animals are kept in enclosures which closely resemble their natural surroundings. The maintenance and care of animals housed in Bhagwan Birsa Biological Park is an expensive proposition. In addition to providing nutritious food, the animals are also provided with dietary supplements and best available medical care. Therefore ADOPTIONS from animal lovers and well wishers are highly solicited.
